The purpose of this one-day conference is to introduce, demonstrate and provide to librarians, educators, and patrons instruction on how adaptive technology meets the information needs of persons with visual or physical impairments via the Internet, online catalogs and electronic media.

Keynote Speaker

Larry Lewis, President of Flying Blind, will discuss adaptive technology applications in the workplace environment, including Cloud Computing.

Break-out Sessions

Attend up to 3 sessions from an array of topics including Amazon Echo vs Google Home, NVDA free open source screen reader, Android OS, Apple iOS, screen enlargement, Google products, and more!
